

# Come

---

*Jain*

Black burn  
I feel so alone  
without you boy  
now I 'm here  
hanging out in the street  
thinking about reactions over actions  
walking on the sky of my dreams

## **Refrain :**

Come, come, my baby come  
I will show you the world  
Come, come, my baby come  
I will cover your nightmares  
Come, come, my baby come  
I will love you forever  
Come, come, my baby come  
I will not let you go

My love, I just feel so lost  
without you boy  
I am yours even if time has passed  
Take me away  
from this impetuous world  
leaving this jail of my mind

## **Refrain**

... My soul, my soul is in Africa, with you boy ...

## **Refrain**

My soul, is in Africa  
with you boy  
Looking at the stars  
on this diamond sky  
giving you my smile  
so you can keep it on your mind  
floating on your blazing eyes

## **Refrain**
